"I am running for First Vice Chair of the Maricopa County Republican Committee because I am confident my passion for Conservative values, ability to organize grassroots initiatives, focus on small businesses, and patience as a mother of all boys will serve our precinct committeemen of Maricopa County well. I believe in hard work, both individually and collectively. I believe one person can make a huge difference, but a community of like-minded, clearly focused individuals can move mountains.

I believe MCRC has an important future ahead and our purpose is clear: we must support and elect Republicans at all levels. Our nation is at a tipping point unlike any other in our history, and we need to be united in messaging and focused on the success of conservative principles. I will work tirelessly to overcome challenges and grow the party in support of Republican candidates at all levels and in all offices." **Lisa Askey**
