

Craig grew up in a very small town in western Kansas and has been a conservative Christian Republican all his life. He attended Kansas State University where he obtained a Bachelor's Degree in Mechanical Engineering and subsequently went to work for General Motors Corporation. He resigned from a GM management position in 1987 and moved his wife and two very young sons to Gilbert Arizona and they have made Gilbert and Chandler their home for the last 35 years. Both sons, their wives and seven grandchildren all live in the Valley of the Sun.

Craig founded Systems 3 Inc., an engineering consulting company in 1985. He grew Systems 3 from one to approximately 150 employees. As time passed and the company evolved, Systems 3 became a major supplier to many aerospace companies including Boeing and Lockheed for engineering services and machined parts. Craig was the President of Systems 3 until August of 2021 when the company was sold.

Now, Craig spends a great deal of his time in support of America First and Election Integrity ideals. In 2022 Craig was elected as a MAL on the MCRC EGC. This year, he and his wife hosted 3 general Republican 2022 Primary meet and greets, a fund raiser for the Chandler City Council and a large fund raiser dinner for Mark Finchem. Craig also serves as the Sargent at Arms for LD12, supports the activities of Turning Point USA, the AZ Free Enterprise Club, and We the People efforts. Craig was a full time poll worker during the 2022 Primary and General Election.

Craig is a pilot and owns and operates a light jet. Besides personal travel, he uses the aircraft to transport disabled military veterans to and from special events and provides Republican candidates air transportation to and from campaign events.
