VOTE REPUBLICAN ★ SECURE ELECTIONS ★ AMERICA FIRST

Paid for by LD22 Republican Committee. Not authorized by any candidate or candidate's committee.

Arizona's 2026 primary had the **lowest turnout in nearly 20 years** — only 40.2% of registered Republicans voted, while 41% of registered Democrats turned out.

If Republicans stay home in November, we risk losing the legislature to a radical progressive majority. Including a self-described Democratic Socialist, 3 No Safe Seats (campaign to primary moderate Democrats) progressives, and a hard-left progressive incumbent.

Arizona may never recover from a radical takeover. Vote in the General Election — or risk losing our state forever.
